Give Your Children The Gift of a Healthy Smile Without a Lifetime of Fear...

The Children's Dental Health Center at Englewood Dental is a kid-friendly space dedicated to the treatment of children and adolescents. Children are not simply small adults, young patients require special techniques and a gentle touch. Our pediatric specialist, Dr. Jennifer Akkaway, will show your kids that dental visits can be fun!

We are offering the following introductory gift: Free children's dental exam and cleaning to new pediatric patients (ages 1 to 13). Offer good for a limited one-time usage only (normal value \$166).

The American Academy of Pediatric Dentistry recommends that children see a dentist from age 1 for excellent dental health. We provide orthodontics, sedation and gentle treatment for special need patients.

Call now to schedule an appointment 201 -871 -3555 and be sure to mention this coupon.
